ABOUT COMPANY

At PureSun India, we take pride in being a driving force behind this transformation — delivering innovative solar power solutions that make homes, businesses, and institutions more energy-efficient and environmentally responsible.

With a strong focus on quality, performance, and innovation, we provide end-to-end solar energy systems, including rooftop and ground-mounted installations. Each project is designed for maximum efficiency, reliability, and long-term value.

With a strong focus on quality, performance, and innovation, we provide end-to-end solar energy systems, including rooftop and ground-mounted installations. Each project is designed for maximum efficiency, reliability, and long-term value.

COMPANY STRATEGY

- **Purpose:** To provide most efficient way of solution to our customer as per their requirements, accordingly to international standard and upgraded technology.
- **Vision:** The development of project with new innovation and latest technology to give maximum benefit to our customers.
- **Mission:** To create faith in the heart of our customer and provide excellence in services by pursuing business through innovation and latest technology.
- **Core Values:** We integrate honesty, integrity and business ethics into all aspects of our business functioning.

OUR EXPERTIES

PureSun India delivers end-to-end EPC (Engineering, Procurement & Commissioning) services for a wide range of solar power solutions. With strong technical capabilities and proven execution, we design and implement reliable systems tailored to diverse energy needs.

Our Solar Installation Process

- **Initial Consultation**

Our PureSun India team connects with you to understand your requirements.

- **Site Survey**

A detailed site inspection is conducted to assess feasibility and system size.

- **Proposal & Cost Estimate**

We share a customized technical proposal along with a transparent cost estimate.

- **Material Procurement & Structure Installation**

Delivery and mounting structure installation.

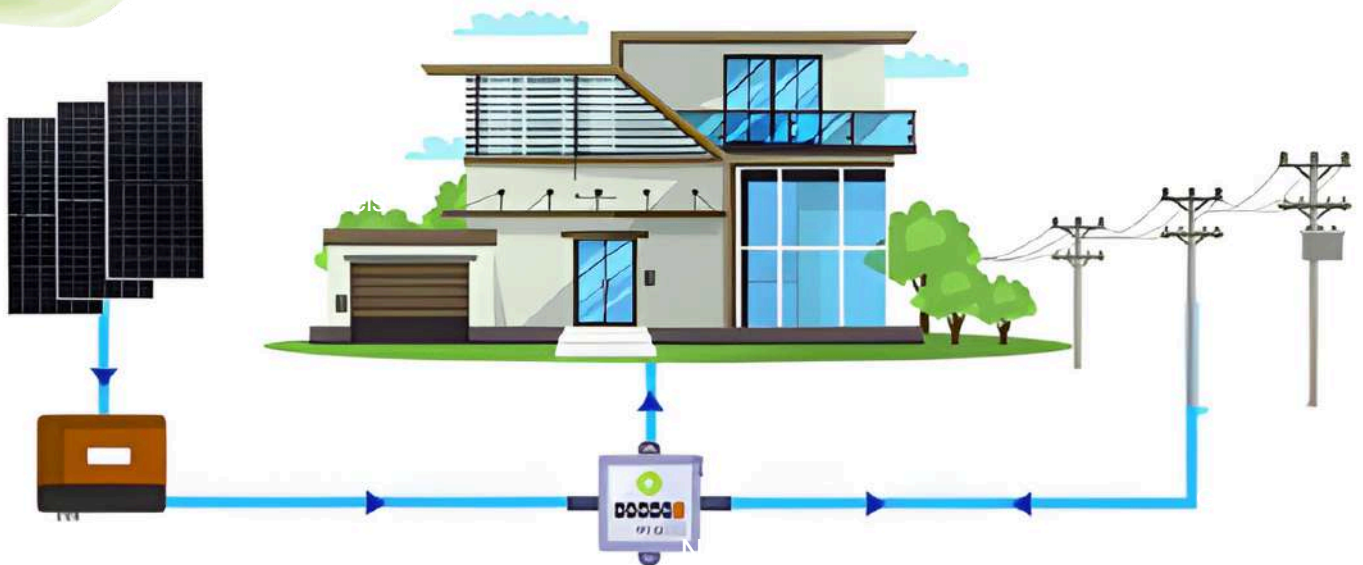

- **Solar PV System Installation**

Solar panels, inverters, and electrical components are installed and tested.

- **DISCOM Approval & Net Metering**

We coordinate with the local DISCOM for grid connection and net metering approval.

HOW DOES ON-GRID SOLAR WORK

	Solar generation units	House consumption units	
Month 1	120 units	100 Units	20 units exported
Month 2	70 Units	100 Units	30 units imported
Net	190 units	200 Units	10 units imported

Off-grid solar plant

For remote areas without electricity access

Hybrid solar plant

Ideal for areas experiencing more than 40% electricity outage.

GRID CONNECTED PV SYSTEM

S No.	System capacity	Inverter Capacity	PV panel Capacity (Multi-Crystalline)	Area Required (Sq.m.) Approx.	Yearly generation (Approx.) Kwh	Payback period for Rs 7 /kwh (Yrs.) (Approx.)
1	1 kW 3	1 kW 3	1 kWp 3	10	1500 4500	4.6 4.6
2	kW	kW	kWp	30	7500 15000	4.6 4.6 4.3 4 4 3.4
3	5kW 10	5kW 10	5 kWp 10	45	22500 30000	3.4
4	kW 15	kW 15	kWp 15	90	45000 75000	
5	kW 20	kW 20	kWp 20	135	150000	
6	kW 30	kW 30	kWp 30	180		
7	kW 50	kW 50	kWp 50	270		
8	kW 100	kW 100	kWp 100	450		
9	kW	kW	kWp	900		

SOME OF OUR PROJECTS

J K Maheshwari

We installed a rooftop solar system for our commercial building. The design was well planned and energy generation is exactly as projected. Very satisfied with the service

★ 3.8

OUR CLIENT

Ramesh Mittal

The team was responsive and knowledgeable. Material quality and installation work were excellent. Net metering was completed without any hassle.

★ 4.0

OUR CLIENT

R K Solanki

PureSun India handled everything professionally—from site survey to net metering approval. The installation was completed on time and the team explained each step clearly.

★ 4.9

OUR CLIENT

BMW Bird Automotive

The PureSun India team was very professional and transparent. They guided us properly from the first call to final commissioning. The system is working perfectly

★ 4.8

OUR CLIENT

Silverline Electronics

We are happy with the quality of materials and installation work. The project was completed within the promised timeline and net metering was handled smoothly.

★ 5.0

OUR CLIENT

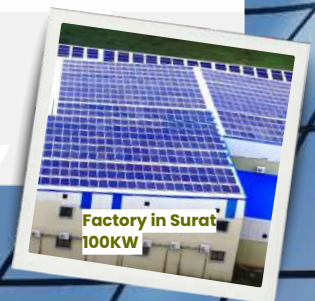

S.A Snacks Pvt Ltd

Our electricity bills have reduced significantly after installation. PureSun India provided a reliable and cost-effective solar solution.

★ 4.9

OUR CLIENT

PureSun India is powered by experienced engineers and skilled technicians specializing in solar energy solutions. Our team ensures quality execution, safety, and reliable performance at every stage of the project.

BENEFITS OF GOING SOLAR WITH PURESUN INDIA

At PureSun India, we believe the sun is the foundation of a cleaner, smarter, and more sustainable tomorrow. By harnessing the power of solar energy, we help homes, businesses, and industries reduce their dependence on conventional electricity while lowering costs and environmental impact.

- **Lower Electricity Bills**

Reduce monthly power costs by generating your own clean energy.

- **High Return on Investment**

Fast payback period with long-term savings for 25+ years.

- **Net Metering Advantage**

Earn credits for excess power exported to the grid.

- **Reliable Power Generation**

High-efficiency systems designed for maximum performance.

- **Low Maintenance**

Minimal upkeep with durable, certified components.

- **Eco-Friendly Energy**

Reduce carbon footprint and support a cleaner environment.

- **Expert Installation**

Professional execution with safety and quality assurance.

- **End-to-End Support**

From approvals to commissioning and after-sales service.

Residential Solar Solutions

Commercial & Industrial Solutions

Free Consultation and Survey

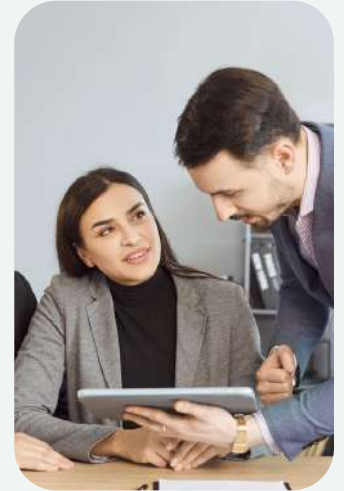

At PureSun India, we begin every solar journey with a free consultation and site survey. Our experts carefully assess your rooftop, energy consumption patterns, and budget to design a system that perfectly fits your needs.

Maintenance & Support

- Regular cleaning and servicing to maintain efficiency.
- Performance monitoring with smart tools for real-time insights.
- Annual Maintenance Contracts (AMC) for hassle-free upkeep.
- Troubleshooting and repair support with dedicated service teams.

Annual Maintenance Contract (AMC)

To keep your solar system running at its peak, PureSun India offers hassle-free Annual Maintenance Contracts (AMC). Our AMC covers routine inspections, panel cleaning, system performance checks, and timely troubleshooting to maximize output and extend system life. With expert technicians and prompt service, you can enjoy peace of mind knowing your solar investment is in safe hands.
